

COMPANY DESCRIPTION

SUNFLAGS was established in 1994 and started off as a flag making company in Msasa. Since then the company has grown, continuously evolving and expanding to become a leading below and above-the-line branding supplier. SUNFLAGS sees itself at the pinnacle of the printing and branding industry and this ambition led to a decision to invest in new print technologies and synergize with NF Branding of South Africa in order to grow and enhance our printing capabilities and product range.

Printing technologies such as flat bed printing, dye sublimation and direct digital printing have provided us with endless printing capabilities and a wide range of products. Our products include a full range of flags, banners, point of sale products, signage and display systems. Today, because of our synergies, we boast the largest product range in the Zimbabwean branding industry. SUNFLAGS is continuously expanding, looking to grow and move into new markets, like

- ☐ Retail Displays
- ☐ Brand Exposure
- ☐ Promotion
- ☐ Marketing Campaigns
- ☐ New Product Launches
- ☐ Website Launches
- ☐ Sports
- ☐ Trade Shows
- ☐ Conferences
- ☐ Elections, and
- ☐ Decorations

We are sweeping the continent, and leading a new generation of branding innovations. With our new strategy we offer our clients a complete solution of all branding requirements from above to below-the-line products and design.
